
**Hemi-Sync - The Gateway Experience [FLAC]
(corrected) 35**

this post serves as an introduction to hemi-sync or the gateway process. it is a system that permits the isolation of consciousness from the reality that it inhabits. there have been a flood of articles regarding this process because

the cia declassified its use when it was involved in remote viewing activities. yet all of the theories, and articles put forth still come associated with the baggage of an imperfect understanding of the true and real nature of the universe. here, we are going to present the techniques alongside the way the universe actually operates. i have a pretty full collection of hemi-sync cds including the complete gateway experience cds. i try to listen to something every few days. a few days ago i received heros journey in the mail. i let it sit at my listening station for a couple of days before i got around to putting on the headphone and

listening. the audio track engages the listener to hemi-sync, and gives them an experience that is a type of self-hypnosis. you simply relax and listen to the woman talk you into a state of relaxation. for some people they find this particular set of music very relaxing and calming. for others, who prefer an over-wrought mind, find it uncomfortable. the gateway tapes come in two main versions, one for auditory use and one for visual use. the auditory version is primarily an orchestral performance with recording while the visual version is a live performance. they are named according to the physical movement of the

performer. both versions will induce what the performers call the gateway experience. the gateway tapes version for visual use is an audio-visual performance, where he moves around the stage and makes a soundtrack.

Hemi-Sync - The Gateway Experience [FLAC] (corrected) 35

gateway is a journey of the heart. the native american flutes, drums, bells and bowls, tibetan singing bowls, and crystal harp are used to guide you on a deep and powerful journey of your own. the result is a harmonious presentation of the supernal realms for the comfort and enjoyment of your mind, body, and

soul. its a sublime experience that you dont want to miss! as you travel through this album, you will be immersed in the creation of the album. you will hear the instruments and the artist, as they create together as one. you will be connected to the universe and all that is. you will experience music, sounds, and vibrations like never before. and you will be a part of something extraordinary. gateway is a work of art, and a healing and consciousness raising experience. welcome to the world of consciousness, where everything is energy. in the beginning, we are all connected, but after we are born we are disconnected

from that world. where does our disconnection come from? our brains. our brains are the gates to the world of consciousness. they filter everything that comes into the body. they are the key to unlocking our ability to perceive reality as we really are. hemi-sync frequencies support these transitions and provides for a metamorphic experience to enhance your personal growth. instruments include native american flutes, frame drums, shakers, rattles, koshi bells, tibetan singing bowls, and crystal harp. the most important thing to know about hemi-sync is that it is not a religious experience. it is not a way to “get

closer to god” or anything of the sort. however, it is a way to change your perception of reality. it is about going inside yourself and having an experience of the whole. it is about discovering more about yourself, and discovering more about the universe. so where does this occur? in the brain. your brain, and more importantly your consciousness, is the key to unlocking the mysteries of the universe.
